Reproduction in super high frequency range

Speaker

Popular type tweeters with high-quality sound suitable for DVD systems

Industry/Field:

AV

The new tweeter with the popular price range in the domestic market by our original construction and process

• **Development Target:**

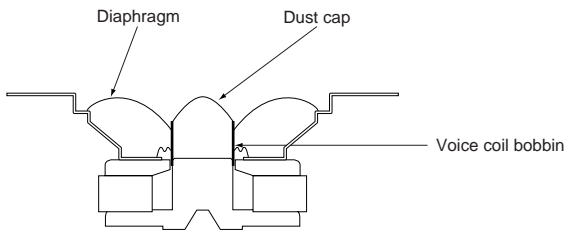

The number of the popular MINI-COMPO system with DVD is increasing in the domestic market. High performance and superior design is required for the speaker of the popular MINI-COMPO system.

• **Features:**

- ① Reproduction in wide frequency range for DVD systems by our original ring-shaped dome diaphragm
- ② Low distortion by PP mica sheet
- ③ High-quality design by PP mica sheet

• **Number of industrial property rights: 1(Pending)**

• **Construction:**

• **Characteristics/specifications:**

	New type
Frequency range	1kHz to 50kHz(-16dB)
Rated input	60 W
Impedance	6 Ω
S.P.L	87.5-3dB(2.45V, 1m)
Mass/Size	80g/(62×62×25.9)mm
THD characteristics	Comparison of conventional type Below 3kHz, -5 to -10dB

*Dimensions will be changed by designs.

• **Applications/usage examples:**

- DVD audio systems, DVD car audio systems, DVD home theater systems, etc.

• **Explanation of part numbers:**
