

Applications for Lithium Battery

CR: Manganese Dioxide Lithium Batteries BR: Poly-carbonmonofluoride Lithium Batteries VL: Vanadium Rechargeable Lithium Batteries

ML: Manganese Rechargeable Lithium Batteries CTL: Cobalt Titanium Rechargeable Lithium Batteries MT: Manganese Titanium Rechargeable Lithium Batteries

Application		Battery												
		Coin type							Cylindrical type			Pin type		
		Primary				Rechargeable				Primary			rechargeable	
		CR	BR	High temp. CR	High temp. BR	VL	ML	CTL	MT	CR standard	CR Long life	BR	BR	Li-ion
Automotive	Keyless entry	○				○								
	Drive recorder (memory backup)					○	○							
	TPMS			○	○									
	ETC		○	○	○					○				
	eCall system									○				
	Automotive devices (tracking system, alarm, etc.)			○	○					○	○			
Medical	Thermometer	○												○
	Blood glucose monitor	○												○
	Insulin pump									○				
	Smart inhaler	○							○	○				○
	Active tracker (smart watch)	○												○
	AED								○	○				
Hearing Aid													○	
Infrastructure	Meters (gas/water/electronic)		○	○	○					○	○			
	Fire alarm					○				○	○			
	Price tag	○												
	Door lock device									○	○			
	Security camera									○	○			
	Flashlight									○				
	Tracking device (logistics)	○								○	○			
	Transceiver for business											○		
	Small transmitter (tracking device, etc.)	○											○	
	Sensor devices	○						○		○	○			
Memory backup	○	○		○	○	○					○			
Consumer	Wireless earphone													○
	Stylus pen													○
	Smart glass													○
	Watch	○						○	○
