

## 生产地点

| 产品                    | 系列        | 日本<br>(富山) | 日本<br>(島根 / 松江) | 中国<br>(江門) |
|-----------------------|-----------|------------|-----------------|------------|
| 薄膜电容器<br>(电子机器用)      | ECHU(X)   |            | ○               |            |
|                       | ECHU(C)   |            | ○               |            |
|                       | ECWU(X)   |            | ○               |            |
|                       | ECWU(C)   |            | ○               |            |
|                       | ECWU(V16) |            | ○               |            |
|                       | ECPU(A)   |            | ○               |            |
|                       | ECQE(F)   |            |                 | ○          |
|                       | ECQE(B)   |            |                 | ○          |
|                       | ECQE(T)   |            |                 | ○          |
|                       | ECWF(L)   |            |                 | ○          |
|                       | ECWF(A)   |            |                 | ○          |
|                       | ECWFD     |            |                 | ○          |
|                       | ECWFE     |            |                 | ○          |
|                       | ECWH(V)   |            |                 | ○          |
|                       | ECWH(A)   |            |                 | ○          |
|                       | ECWH(C)   |            |                 | ○          |
|                       | TMF       |            |                 | ○          |
|                       | ECQUA     |            |                 | ○          |
|                       | ECQUL     |            |                 | ○          |
| ECQUG                 |           |            | ○               |            |
| 薄膜电容器用<br>(交流电动机电容器用) | PMF, SMF  |            |                 | ○          |
|                       | AMF       |            |                 | ○          |
|                       | DMF       |            |                 | ○          |

| 产品                       | 系列                                  | 日本<br>(富山) | 日本<br>(島根 / 松江) | 中国<br>(江門) | 斯洛伐克 |
|--------------------------|-------------------------------------|------------|-----------------|------------|------|
| 汽车用, 产业 & 基础设施用<br>薄膜电容器 | ECQE                                |            | ○               |            |      |
|                          | ECWFG                               |            |                 | ○          |      |
|                          | ECQUA<br>(For Automotive)<br>Type 1 |            |                 | ○          |      |
|                          | Custom made<br>for xEV              | ○          | ○               | ○          | ○    |
|                          | EZPE                                |            |                 | ○          |      |
|                          | EZPE<br>(Low Profile)               |            |                 | ○          |      |
|                          | EZPQ                                |            |                 | ○          |      |
|                          | EZPV                                |            |                 | ○          |      |
|                          | Custom made<br>for train            | ○          |                 |            |      |
|                          | Custom made<br>for industrial       | ○          |                 |            |      |
