### **Notice on Change of Production Location of Gear Heads for the Shin-G Series Compact Geared Motors**

Thank you for your continued cooperation and support over the summer period.  
This is a notice to inform you that the following changes are to be made.  
We hope for your understanding in this matter.

Kind Regards

#### Particulars

- Model/number  
All models of gear heads for the Shin-G Series Compact Geared Motors
- Reason for change  
To strengthen the production structure.
- Timing of the change  
To be steadily changed from production lots from February 2012.
- Details of the change
  - 1) The production location of gear heads for compact geared motors will change from Japan to overseas (the Philippines).  
Following the change of the production location, the indications on the faceplate and labels on the packaging, etc. are to change as follows.  
Made in Japan → Made in Philippines
  - 2) The product faceplate design of the gear head for the 42 square motor will be adopted as the standard.  
[Current]

- Other points  
The product specifications and characteristics will not be altered following the change of production location.

End
