Notice of Change in the Product Nameplate Label of Brushless Motors for Driving B2 Series G Type (Made-to-Order) and B4 Series G Type Brushless Inverters

Although the nameplate label of the above-mentioned brushless inverters was previously changed as we stated in Motor News issued on May 19, 2011, we will change the label again to promote standardization in our company.

We appreciate your understanding.

■ Target models:

B2 Series G Type Brushless Inverter (Model No.: MBDE*****: Made-to-order)

B4 Series G Type Brushless Inverter (Model No.: MBDP*****)

■ Details of the change: The nameplate label will be changed as shown below.

(Example) B4 Series G Type: MBDP3A1BCR

Current	New
 <p>Printed on an aluminum-evaporated PET film * Base color: Matte silver</p>	 <p>Printed on a white polyester film * Base color: White</p>

■ Reason of the change: To adopt the same nameplate label material as that used for our other models (other series) in order to promote standardization

■ Schedule: This change will apply to products manufactured from October 2012 onwards.

■ Others: This change will not affect product quality or characteristics.
The new label material is also environmentally friendly.

END
