■ Reason for the change and how to handle conventional labels

- There are two ways to indicate the CCC mark on the product: "Label purchase" to buy specified CCC mark labels from the Chinese Certification Authority; and "Print to Chinese plate" to print the CCC mark on our own plate with the approval of the Chinese Certification Authority.
We have obtained approval of Chinese Certification Authority on our products above so that we can change "Label purchase" to "Print to Chinese plate".
The change does not affect the CCC certificate so that the conventional labels will do for the products that you have already purchased.
- This change does not affect the product's capacity and properties.

■ Schedule

Change in sequence from the consignment of January 2013.
