Motor Business Division

Notice of the Inclusion of the Instruction Manual (Safety) in the Package and Change in Packaging Specifications for the Gear Heads for Shin-G Series Compact AC Geared Motors with a Flange Size of 42 mm Square

We will include the Instruction Manual in the package for the gear heads for Shin-G series compact AC geared motors with a flange size of 42 mm square. Accordingly, we will also change the packaging specifications.

We appreciate your understanding.

■ Target Models:

Gear heads for Shin-G series compact AC geared motors

Gear heads for motors with a flange size of 42 mm square with a model number starting with "M4GA"

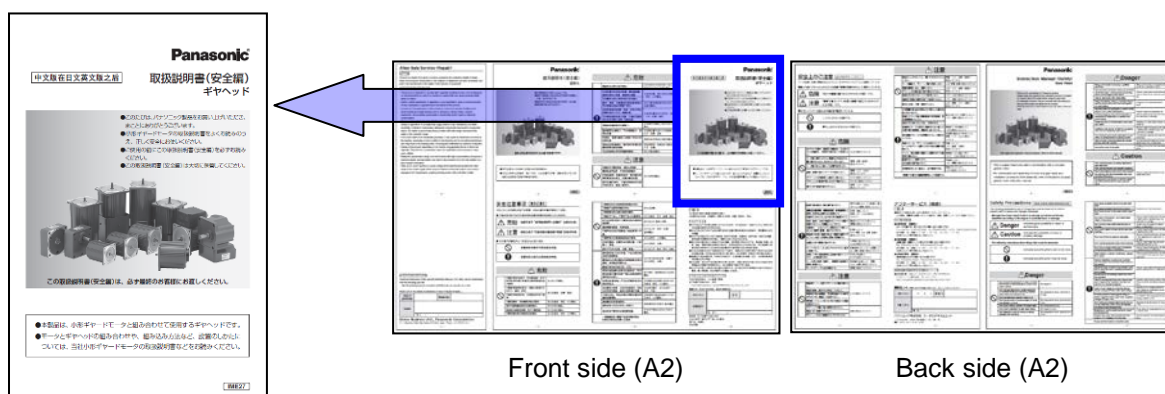

■ Reason of the change:

To make clear that the gear heads are to be used with motors and to enhance safe use, the Instruction Manual (Safety) (A2 folded, two-sided print) will be included in the package.

The packaging specifications will also be changed to secure the space for the above Instruction Manual as well as to promote the common use of packaging materials.

■ Details of the change:

1. The Instruction Manual (Safety) shown below will be included in the package by folding it three times. The size of the Instruction Manual is A5 (a two-sided A2 sheet folded to A5). Information is available in Japanese, English and Chinese.

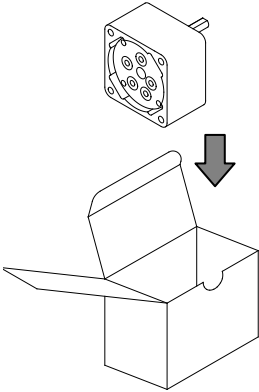

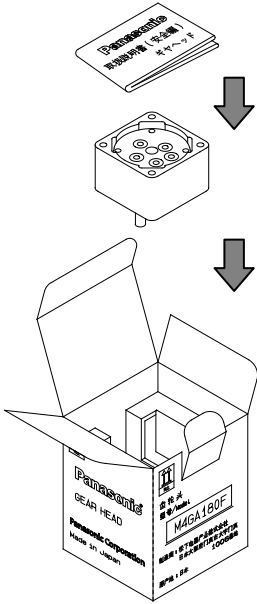

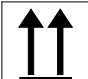

2. Specifications for the individual packaging and collective packaging as well as the packing condition (direction) of the gear head will change.

■ Schedule

The change will apply to products manufactured from April 2014 onwards.

■ Details of the changes of the packaging
