Shin-G Series Compact Geared Motors **Notice concerning Change of Production Location for Gear Heads**

Thank you for your ongoing support and commitment in the winter season.
This is a notice to inform you that although a change of production location was announced in the August 10, 2011 Motor News, but due to productivity improvement, production will occur in Japan and the Philippines.

This means changes to the printing on the faceplate and the package, etc.
We hope for your understanding and cooperation with this matter.

Kind Regards

- Particulars -

■Affected models: Gear heads of Shin-G Series Compact Geared Motors

(Product number) MX6G□**H**,
MX7G□**H**,
MX8G□**H**,
MX9G□**H**, MY9G□**H**, MX9G□**BU**

The suffix "H" in the product number is for C&B gear heads. The suffix "BU" indicates inch-sized gear heads. Only the 90 mm square model of the inch-sized gear heads is affected.

The figure for the reduction gear ratio is entered in the □

. Example: If the reduction gear ratio is 1/30, the number is MX6G30H.

■Description of the change

The production location is changing from the Philippines only to either Japan or overseas (the Philippines).

Following the change in the production location, the indications on the faceplate and labels on the packaging, etc. are to change as follows.

Made in Philippines → Made in Japan or, Made in Philippines

■Reason for change: productivity improvement.

■Timing of the change: to be steadily changed from production lots from February 2016.

■Other points

The quality of the products and their specifications (characteristics and exterior dimensions) will not change.

Items utilized give consideration to environmentally hazardous substances.
