PANATERM software version upgrade Notification

Thank you for your daily support and efforts to our business.

As per the title, we would like to notify you about upgrade of PANATERM setup support software for Windows operation system.

We would appreciate your understanding and cooperation with this matter.

■Schedule of the change: New software will be available on our website from October 16, 2017.

URL: <https://www3.panasonic.biz/ac/e/motor/fa-motor/ac-servo/panaterm/index.jsp>

■Target Software

Windows version of PANATERM setup support software for MINAS A5 family (A5 series, etc.) and A6 family (A6SF series, etc.)

The following software does not cause a problem (described later) and excluded from this upgrade.

- PANATERM (Part No. DVOP4460) for MINAS A4 series and E series
- iOS version "Panasonic Motor Setup App"
- Android Smart-phone version "Panasonic Motor Setup App"
- Android Tablet version "Panasonic Motor Setup App"

■Software Version

Target version: Versions 6.0.1.6 and older -

Version after upgrade: 6.0.1.7

Version information can be checked from PANATERM tool bar Help screen.

■Reason for change:

After installing the Windows update program released by Microsoft® on October 10, 2017, there is a phenomenon that PANATERM program doesn't run properly on some computers.

Although temporary countermeasure was published on our website on October 12, 2017, upgraded version of PANATERM released this time will solve the problem.

For your information, this version upgrade will not affect PANATERM functionality.

All existing functions can be used as before.
